

Extended Warranty

DriSteem's Extended Warranty Program provides additional coverage on factory-supplied parts for one or two years beyond DriSteem's standard Two-year Limited Warranty. Extended warranty is available for purchase up to 24 months after the original equipment is shipped:

- to allow for warranty coverage through commissioning on lengthy building projects, and
- to eliminate unforeseen expenses and lay the groundwork for a manageable budget.

Add extended warranty coverage to your next or recently installed DriSteem humidification system. DriSteem specializes in humidification systems designed for specific application requirements, such as short absorption, tight RH control, and web-enabled remote access. Leverage DriSteem's expertise in your humidification system design or upgrade, then increase your peace of mind with extended warranty coverage.

Visit www.dristeem.com to find your local DriSteem representative. While there, explore the product pages and resource library.

Contact your local DriSteem representative for more information about DriSteem's Extended Warranty Program.
